PROJECTS

Online Exam Project in Java Swing Without Database (09/2022 - 09/2022)

- I used here java array to store the questions, options and answers not database. You can use collection framework or database in place of array.

CAR RENTAL SYSTEM IN C++ (10/2018 - 12/2020)

- Car Rental System is based on a concept to rent cars and generate rental invoice of a rental company. Before stepping into the main system a user has to pass through a login system to get access, then only the user can select cars with a different model

Bakery billing system IN C Language (10/2017 - 12/2017)

- Bakery billing system is based on a concept to bakery items purchasing and generate invoice
